ŠKODA SUPERB iV: The SUPERB iV is ŠKODA's first production model to be fitted with plug-in hybrid drive. A 1.4 TSI petrol engine and an electric motor deliver a combined power output of 160 kW (218 PS). The all-electric range is up to 55 km in the WLTP cycle; up to 850 km can be covered when combined with the petrol engine.

TOP HIGHLIGHTS

THE 22 MILLIONTH ŠKODA PRODUCED

ŠKODA AUTO has produced its 22 millionth car. The milestone vehicle, a ŠKODA KODIAQ GT in Velvet Red, rolled off the production line at the SAIC VOLKSWAGEN plant in the city of Changsha. At present, ŠKODA AUTO manufactures at a total of 16 sites in nine countries.

NEW E-MOBILITY SUB-BRAND iV

ŠKODA AUTO combines electric vehicles and a holistically networked ecosystem under the new iV subbrand. The CITIGO^e iV and the SUPERB iV are the first two electrified series models in the company's history.

ŠKODA VISION GT STUDY FOR CHINESE MARKET

ŠKODA AUTO has presented a preliminary outlook for dynamic city SUV for Chinese market. The VISION GT is perfectly tailored to needs of Chinese customers with compact proportions, generous space and elegantly dynamic design. China is only market worldwide where ŠKODA will soon be offering five different SUV models.
